Microsemi makes no warranty, representation, or guarantee regarding the information contained herein or the suitability of its products and services for any particular purpose, nor does Microsemi assume any liability whatsoever arising out of the application or use of any product or circuit. The products sold hereunder and any other products sold by Microsemi have been subject to limited testing and should not be used in conjunction with mission-critical equipment or applications. Any performance specifications are believed to be reliable but are not verified, and Buyer must conduct and complete all performance and other testing of the products, alone and together with, or installed in, any end-products. Buyer shall not rely on any data and performance specifications or parameters provided by Microsemi. It is the Buyer's responsibility to independently determine suitability of any products and to test and verify the same. The information provided by Microsemi hereunder is provided "as is, where is" and with all faults, and the entire risk associated with such information is entirely with the Buyer. Microsemi does not grant, explicitly or implicitly, to any party any patent rights, licenses, or any other IP rights, whether with regard to such information itself or anything described by such information. Information provided in this document is proprietary to Microsemi, and Microsemi reserves the right to make any changes to the information in this document or to any products and services at any time without notice.

About Microsemi

Microsemi Corporation (Nasdaq: MSCC) offers a comprehensive portfolio of semiconductor and system solutions for aerospace & defense, communications, data center and industrial markets. Products include high-performance and radiation-hardened analog mixed-signal integrated circuits, FPGAs, SoCs and ASICs; power management products; timing and synchronization devices and precise time solutions, setting the world's standard for time; voice processing devices; RF solutions; discrete components; enterprise storage and communication solutions; security technologies and scalable anti-tamper products; Ethernet solutions; Power-over-Ethernet ICs and midspans; as well as custom design capabilities and services. Microsemi is headquartered in Aliso Viejo, Calif., and has approximately 4,800 employees globally. Learn more at www.microsemi.com.

Reason for Discontinuance:

The decision to discontinue these products was driven by low demand and low forecast volumes.

Customer Impact:

These devices are being removed from Microsemi's product offering and will no longer be available for order per dates below.

Product may be limited in availability. Orders will be supported on a first-come-first-serve basis and limited to material on hand. Orders for these products will be non-cancelable and non-returnable.

Please contact your local Microsemi Sales Office for information regarding conversion to alternate parts.

Replacement Parts:

Replacement parts with comparable functionality are identified in Table 1. Please contact your local Microsemi Sales Office for more information on other product offerings.

Last Order Date: September 5, 2018

Please note that all orders must be booked as non-cancelable non-returnable (NCNR) the last order date indicated above. No new orders will be accepted after this date.

Although Microsemi will attempt to accommodate all requirements, it is highly recommended that orders be placed as far as possible in advance of the order deadline. The inventory is limited so orders will be taken on a first-come, first-served basis.

Last Shipment Date: March 11, 2019

Please note that Microsemi will continue to ship last-time-buy orders as requested only through the last shipment date noted above. Product orders must be scheduled to ship no later than this date.

Products Affected by this Discontinuance:

Note: The list shown is that of base part numbers. Customers may track part numbers with additional suffixes appended to the base part number to identify packaging, tray/reel and other ordering options. Variants of the listed base part numbers may also be affected.
